

## Gas Chambers Vision 2-21-25 @ 8-00PM Shared 2-22-25

I was driving today when I passed a semi truck with a flatbed. Upon it was a very tall wide cylinder, big enough for five or six people to walk in too easily.

Although it was covered with a tight, snugly fit blue covering upon it. I couldn't see what was under it, but it triggered a vision. I was praying while driving. It is what it is. I began having a vision, and this was around 05:30 PM.

I saw large, tall, cylinder type buildings standing in an area that looked like some type of prison camp with barbed wire fences but with the barbed wire fence at the top of the wall that had barbed wire woven in between the beams of the fence. The fence had, like, metal beams. They were metal beams or, more like, round posts. They were so far apart, but they had the barbed wire all the way just entwined all through it.

The fence was metal, and then at the very top, it had a really wide piece, and then it had all the barbed wire like you see around prisons and things. That's why I thought immediately it was some kind of prison.. There was not any grass present, and the ground was cracked and barren looking. There's two of these large buildings side by side. As I'm praying and seeking, all the sweet Holy Spirit is helping me to drive or was driving. I'm not sure. The two large metal buildings looked like they could hold hundreds of people in each one. I heard the word "cyanide," then I heard "gas chambers."

And as I began writing the vision out when I came home, because it was still very fresh, I heard my lovely Jesus Christ begin to say, "They're bringing the gas chamber back for the end time days. The same yet different for the dissidents of antichrist. A mass killing in the beginning to reduce the numbers quickly for better control. The less population, the less people who conform and rise up against him.

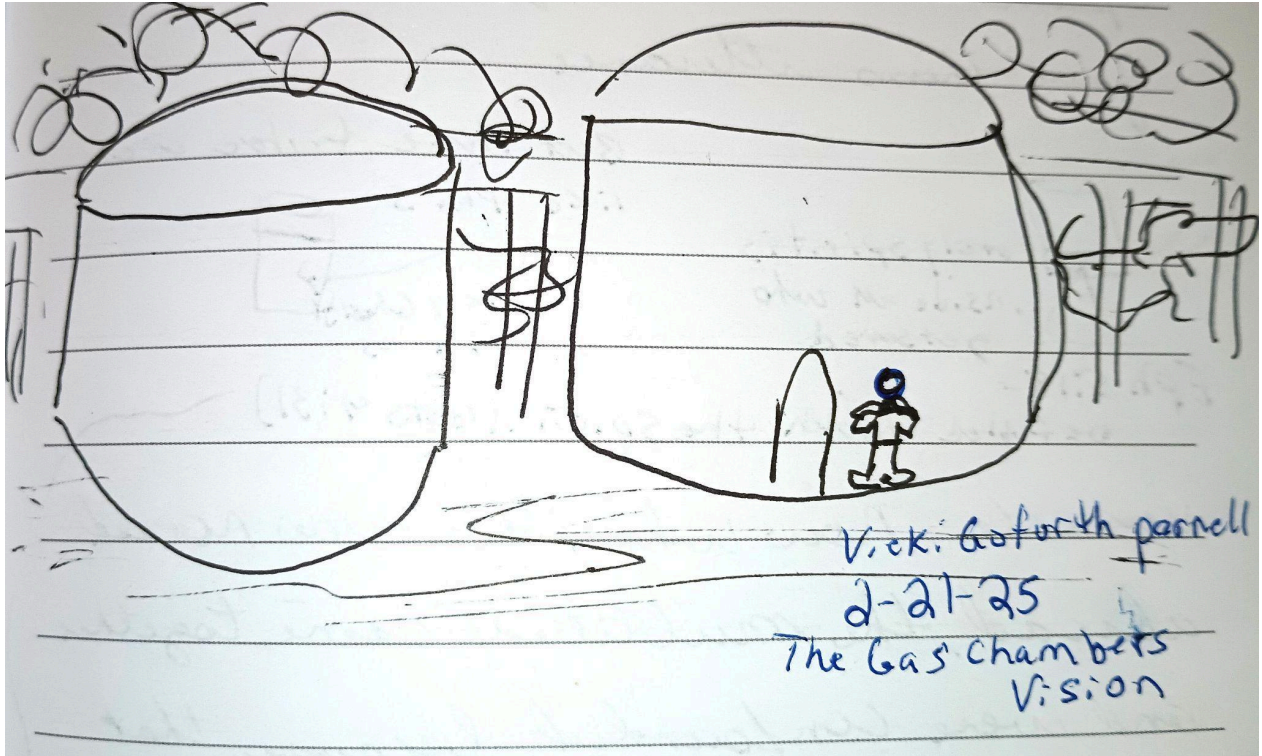

Daughter, you've seen one of the many sites to be built. This site shall be in North Carolina and is due in part besides the underground mineable treasures beneath why the land was destroyed by a hurricane, then ravaged by fire, by the manipulation of mankind's technology of the fallen ones. And then it was gone. That's all he said.

The buildings kinda remind me when I looked online, like, big silos. They were totally metal. They weren't shiny silver, but had the look of industrial steel. So please take that to Jesus Christ in prayer.
